

What sets Qi Acupuncture & Wellness Apart from Other Acupuncture Providers?

- 1 We love what we do and provide focused patient care with an environment that foster healing. All decisions we make are with that goal in mind; from our do not disturb phone setting (allowing our clients undisturbed healing time), to our pricing structure.
- 2 You will not need to feel guarded or cautious when you explain your ailments. We are not going to make you feel like there's something wrong with you or that you need a psychological evaluation. We WANT you to unload your feelings, concerns, and fears so we can help you get better!
- 3 We are not a high volume low quality practice. We take our time with you: 1.5 hour first visits and 45-60 minute follow ups for acupuncture appointments. As an added bonus, when you get acupuncture treatment you get an herbal consult at no extra charge.
- 4 We do not ala cart services. Some acupuncturist charge a base fee of \$60-70 plus an additional charge for each adjunct therapy used during a session (moxa \$10, electro-acupuncture \$15, multiple conditions treated \$20, etc). This system can leave you worrying about cost during your session instead of focusing on your healing. With one simple price, whatever services are needed is provided so you can RELAX and HEAL.
- 5 We don't use the same protocol on all our patients like some acupuncturist. Your treatment is individualized and customized to your needs and goals. Because our acupuncturist has studied under leading Asian experts in the US and China, she has a broader base of knowledge available to help you achieve your goal(s) while providing educational information to keep you on track.
- 6 Evening and lunch time appointments available at no extra charge. For patients that have already had their first visit, they can come in during lunch and not worry about

taking time from work. Evening appointments accomplish this goal for new and established patient alike. So you don't lose money at work or pay extra for premium slots.

- 7 You will not be left in the dark. When you come in for a consultation we provide you with a recommended treatment plan. You are aware upfront of the treatment modalities, time & cost required to achieve your improved health outcomes. If appropriate to your treatment plan, we will provide you with a reassessment schedule to gauge your response to treatment. Additionally, we also offer discounted pre-payment packages that provide substantial savings compared to the pay-as-you-go plan.
- 8 If we cannot help you with your problem, we will recommend someone we believe can assist you in achieving your desired health goal. These recommendations are not limited to other eastern practitioner but include conventional modalities as well.
- 9 I know how much you hurt. I know how horrible it is to have a lingering pain that you can't do anything to get rid of. I know how it feels not to be able to do the activities you used to love. If you have to tell a child "I can't do that with you right now," you should be calling Qi Acupuncture & Wellness (Qi).
